WORK EXPERIENCE

Geomatics Officer
Department of Fisheries and Oceans (DFO)
June - August 2022,
January - April 2023

- Developed an internal search tool using Electron and React that retrieves files from an Azure Blob Storage and allows users to search from them.
- Regularly communicated with team members to keep everyone informed about the progress of the project and address any issues that arose, using Microsoft Teams as the primary means of communication.

Technology Used
- Electron, React, Azure Cloud, Oracle SQL Developer, Oracle Database, Python, PyQT, QGIS, VS Code, Lottie Files

Produce Worker
Farm Boy
March - August 2020

- Provided excellent customer service experience to all customers by creating a welcoming atmosphere and assisting all customers that needed help.
- Supported new staff members with teaching them the basics of the job as well as how to treat the customer properly.
- Ensuring the store was well organized, clean, and fully stocked at all times when possible.
